U.S. STATE DEPARTMENT

LEVEL 4 – DO NOT TRAVEL

The Department of State advises U.S. citizens to avoid all international travel due to the global impact of COVID-19. In countries where commercial departure options remain available, U.S. citizens who live in the United States should arrange for immediate return to the United States, unless they are prepared to remain abroad for an indefinite period. U.S. citizens who live abroad should avoid all international travel.

Many countries are experiencing COVID-19 outbreaks and implementing travel restrictions and mandatory quarantines, closing borders, and prohibiting non-citizens from entry with little advance notice. Airlines have cancelled many international flights and several cruise operators have suspended operations or cancelled trips.

If you choose to travel internationally, your travel plans may be severely disrupted, and you may be forced to remain outside of the United States for an indefinite timeframe.

CENTERS FOR DISEASE CONTROL

LEVEL 2 – SPECIAL PRECAUTIONS

- Ongoing community transmission of [respiratory illness caused by the novel \(new\) coronavirus \(COVID-19\)](#) is occurring globally.
- Older adults and people of any age with serious chronic medical conditions should consider postponing nonessential travel.
- Travelers should avoid contact with sick people and wash their hands often with soap and water for at least 20 seconds. If soap and water are not readily available, use an alcohol-based hand sanitizer that contains at least 60% alcohol.
- All travelers should monitor their health and practice social distancing for 14 days after returning from travel.
- Travelers who are sick with fever, cough, or have trouble breathing should stay home and call ahead before seeking medical care.
