* CLEARED FOR PUBLIC DISTRIBUTION *

COVID-19 BY THE NUMBERS - NEVADA

47,821 Tests Performed
38,813 People Tested

Note: a single individual may receive multiple tests.

4,690 Positive
34,123 Negative

219 Deaths Statewide

STATEWIDE HOSPITAL CAPABILITY STATUS *

% Occupied Licensed & Staffed Beds	% ICU Rooms Occupied	% of Ventilators in Use
62%	68%	31%

*Nevada Hospital Association Status Updated Daily

COVID-19 CASES IN NEVADA

*As of 4/8/2020 cumulative daily death counts are displayed by date of death, rather than the date that the death was reported to the state. The total count for statewide deaths on the first tab may not equal the sum of the cumulative daily death counts because of cases where exact date of death is unknown or pending report.

STATE OF NEVADA COVID-19 UPDATES

[APRIL 27, 2020] Nevada Governor Steve Sisolak announced that Nevada will be joining California, Oregon, Washington, and Colorado in the Western States Pact – a working group of Western State governors with a shared vision for modifying stay at home orders and fighting COVID-19. The shared principles that will guide this agreement are the health of the State’s residents, that health outcomes and science will drive decisions rather than politics, and a willingness to work together to maximize their collective effectiveness. To learn more about the pact and the four goals that the Governors are working towards, click [HERE](#).

[APRIL 27, 2020] The Nevada National Guard 152nd Airlift Wing, also known as the “High Rollers”, have scheduled a C-130 flyover from noon to 1:00 p.m. on Tuesday, April 28, 2020 passing over Northern Nevada and Sierra range medical facilities to honor first responders on the frontline battling COVID-19. To learn more about the flyover and when they might be passing over your area, click [HERE](#). As a reminder, residents are urged to enjoy the flyover from the safety of their own home and shouldn’t travel to see, including continuing to adhere to social distancing and avoiding large gatherings.

[APRIL 27, 2020] Nevada Attorney General Aaron Ford warned Nevadans to be on the lookout for fake job opportunities advertised online or on flyers as fraudsters take advantage of those seeking work. These fake postings can appear in many of the same places legitimate job openings appear, like online, in newspapers, or on the TV or radio. [READ](#) more about the red flags that indicate bogus job opportunities, including work-from-home scams the AG has outlined.

NEVADA HERO OF THE DAY

RECOGNIZING THE HEROES AMONG US, WHO ARE WORKING TIRELESSLY TO HELP THEIR FELLOW NEVADANS.

NEVADA HERO OF THE DAY **MICHAEL CALAMIA**

Michael works six days a week as a manager at Albertsons to help members of his community purchase essential items.

Thank you, Michael, for playing a vital role in the health of Nevadans.

U.S. STATE DEPARTMENT

LEVEL 4 – DO NOT TRAVEL

The Department of State advises U.S. citizens to avoid all international travel due to the global impact of COVID-19. In countries where commercial departure options remain available, U.S. citizens who live in the United States should arrange for immediate return to the United States, unless they are prepared to remain abroad for an indefinite period. At present the Department of State is making every effort to assist U.S. citizens overseas who wish to return to the United States. As the Covid-19 situation develops, our ability to provide such assistance working with commercial airlines or arranging for evacuation flights may become more limited or even unavailable. In recent weeks, commercial airlines have significantly reduced flight schedules and countries have closed airports and borders with little advance notice. If you wish to return to the United States, you should make arrangements to do so now and contact the nearest U.S. Embassy or Consulate for assistance as needed. There is no guarantee that the Department of State will be able to continue to provide repatriation assistance and transportation options to the United States may be unavailable in the future. If you choose to remain overseas, you should be prepared to remain where you are for the foreseeable future. U.S. citizens who live abroad should avoid all international travel.

CENTERS FOR DISEASE CONTROL

LEVEL 3 – AVOID NONESSENTIAL TRAVEL

- Widespread ongoing transmission of a [respiratory illness caused by the novel coronavirus \(COVID-19\)](#) is occurring globally.
- **CDC recommends that travelers avoid all nonessential international travel.**
- Older adults and people of any age with serious chronic medical conditions are at increased risk for severe disease.
- There may be limited access to adequate medical care in affected areas.
- US residents may have difficulty returning to the United States.
- Travelers should avoid contact with sick people and wash their hands often with soap and water for at least 20 seconds. If soap and water are not readily available, use an alcohol-based hand sanitizer that contains at least 60% alcohol.
- All international travelers should stay home for 14 days after returning from travel, monitor their health, and practice social distancing.
