## STATEWIDE HOSPITAL CAPABILITY STATUS \*

% Occupied Licensed & Staffed Beds	% ICU Rooms Occupied	% of Ventilators in Use
<b>64%</b>	<b>69%</b>	<b>32%</b>

\*Nevada Hospital Association Status Updated Daily

## COVID-19 CASES IN NEVADA

Nevada COVID-19 Cases, Cumulative Daily Counts

Nevada COVID-19 Deaths, Cumulative Daily Counts

\*As of 4/8/2020 cumulative daily death counts are displayed by date of death, rather than the date that the death was reported to the state. The total count for statewide deaths on the first tab may not equal the sum of the cumulative daily death counts because of cases where exact date of death is unknown or pending report.

# STATE OF NEVADA COVID-19 UPDATES

**[APRIL 29, 2020]** Nevada Governor Steve Sisolak signed Directive 016, extending most of the Stay at Home measures through mid-May. However, some restrictions that were previously in place have also been eased, such as allowing retail businesses to offer curbside pickup, permitting drive-in services for places of worship, and the safe reopening of some outdoor recreation activities like golf, tennis and pickleball. To read more about the extension of the stay at home order and everything else the Directive does, go [HERE](#). Also, as reminder, tune in to tomorrow's press conference where the Governor will present his Nevada United: Roadmap to Recovery pplan.

**[APRIL 29, 2020]** [Emergency Directive 008](#), which put a moratorium on all evictions in the State through the duration of the State of Emergency, is still in effect. The Nevada Governor, Treasurer, and Attorney General have issued guidance and mortgage assistance options that can be found on the [CONSUMERS](#) page of the Nevada Health Response website to help landlords, tenants, and homeowners navigate their options.

**[APRIL 29, 2020]** The Nevada Department of Education (NDE) released its Path Forward Plan to support schools and districts in continuing to provide educational opportunities to all students. The Plan outlines what has been done to shift policies and practices. Additionally, it includes next steps for the remaining school year while also beginning preparation for the 2020-21 school year. In conjunction with this, Nevada Governor Steve Sisolak signed [Directive 015](#) confirming the NDE's previous announcement that school buildings would remain closed through the end of the 2019-20 school year. To read more about the Path Forward Plan, go [HERE](#).

**[APRIL 29, 2020]** The Nevada Division of Insurance announced today that many Nevadans will receive premium refunds for their auto insurance policies as a result of less claims being paid as Nevadans continue to "Stay Home for Nevada". The Division has reviewed and approved recent requests from auto insurance companies to provide premium refund credits, checks, dividends, and similar measures brought about by the disruptions caused by COVID-19. Consumers whose insurance companies are participating will be notified directly, and don't need to take any further action to receive the relief. For more information, go [HERE](#).

## NEVADA HERO OF THE DAY

RECOGNIZING THE HEROES AMONG US, WHO ARE WORKING TIRELESSLY TO HELP THEIR FELLOW NEVADANS.

### NEVADA HERO OF THE DAY AIYANA CASTRO

Aiyana, 11, is volunteering her time collecting face masks and providing meals to families in need.

Thank you, Aiyana, for representing the potential and giving spirit of Nevada's youth!

U.S. STATE DEPARTMENT

**LEVEL 4 – DO NOT TRAVEL**

The Department of State advises U.S. citizens to avoid all international travel due to the global impact of COVID-19. In countries where commercial departure options remain available, U.S. citizens who live in the United States should arrange for immediate return to the United States, unless they are prepared to remain abroad for an indefinite period. At present the Department of State is making every effort to assist U.S. citizens overseas who wish to return to the United States. As the Covid-19 situation develops, our ability to provide such assistance working with commercial airlines or arranging for evacuation flights may become more limited or even unavailable. In recent weeks, commercial airlines have significantly reduced flight schedules and countries have closed airports and borders with little advance notice. If you wish to return to the United States, you should make arrangements to do so now and contact the nearest U.S. Embassy or Consulate for assistance as needed. There is no guarantee that the Department of State will be able to continue to provide repatriation assistance and transportation options to the United States may be unavailable in the future. If you choose to remain overseas, you should be prepared to remain where you are for the foreseeable future. U.S. citizens who live abroad should avoid all international travel.

CENTERS FOR DISEASE CONTROL

**LEVEL 3 – AVOID NONESSENTIAL TRAVEL**

- Widespread ongoing transmission of a [respiratory illness caused by the novel coronavirus \(COVID-19\)](#) is occurring globally.
- **CDC recommends that travelers avoid all nonessential international travel.**
- Older adults and people of any age with serious chronic medical conditions are at increased risk for severe disease.
- There may be limited access to adequate medical care in affected areas.
- US residents may have difficulty returning to the United States.
- Travelers should avoid contact with sick people and wash their hands often with soap and water for at least 20 seconds. If soap and water are not readily available, use an alcohol-based hand sanitizer that contains at least 60% alcohol.
- All international travelers should stay home for 14 days after returning from travel, monitor their health, and practice social distancing.
