NEVADA'S STATEWIDE LONGITUDINAL DATA SYSTEM

PROPOSED VISION AND MISSION APPROVED MARCH 29, 2012

Vision: A seamless, unified information sharing system enabling data-driven decision-making along the P-20 continuum. (Iowa, Texas, and Washington)

Mission: Nevada's P-20 Statewide Longitudinal Education Data System will provide stakeholders in public education including educators, policymakers, and communities with a comprehensive, integrated data and analysis system for informed decision-making which will lead to educational improvement at all levels. (Florida, Iowa, Minnesota, and Washington)

ALTERNATIVE PROPOSED MISSION LANGUAGE
MAY 11, 2012

Nevada's P-20 Statewide Longitudinal Education Data System will provide all parties interested in public education, including, but not limited to, educators, policymakers, and communities with a comprehensive, integrated data system to facilitate analysis and the making of informed decisions in a wide variety of educational topics, such as evaluating teachers and student progress, as well as introducing innovation and change.
