January, 2017 Flood Event Emergency Contracts

Heavy flooding occurred throughout District II beginning Saturday, January 7, 2017, causing extensive damage to roadways and other infrastructure, including extensive rocks, mud, and debris on roadways, erosion of shoulders (including under pavement), and complete washouts of sections roadway. The following emergency contracts were issued to supplement Department forces in mitigating and repairing the damage.

Work includes removing rocks, mud and debris from roadway, rebuilding shoulders with fill material, compacting new material, rebuilding drainage ditches and infrastructure, cleaning sediment from pipes and culverts that are full of sediment, and replacing damaged pipes and culverts as directed. For pavement repairs: saw cutting damaged pavement, cold milling or grinding or micro-grinding as directed, rebuilding and compacting structural sections, and installing new hot mix or cold mix asphalt as directed. Installing new signage, guide posts, barrier rail, guard rail, fencing, and pavement striping as directed. Providing traffic control according to NDOT and ATTSA Standards, which may include lane closures and flaggers for continuous 24 hour periods for multiple consecutive days.
