6. Machine Operators
7. Drivers
8. Electricians
9. Maintenance & Repair Technicians
10. Stonemasons

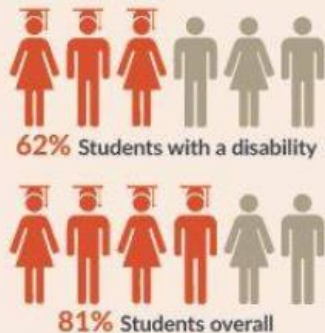

Why Is Career and Technical Education (CTE) Important for Employment Success for Students With Disabilities?

College and Career Readiness Gaps Persist for Students With Disabilities

Persons with a disability are less likely to graduate on-time, attend college or be employed compared to those without a disability. The disparity in employment between those with or without a disability continues for those who attend college.

Lower on-time high school graduation rate

Source: U.S. Department of Education, OESE, Consolidated State Performance Report, 2010-11, 2011-12, and 2012-13

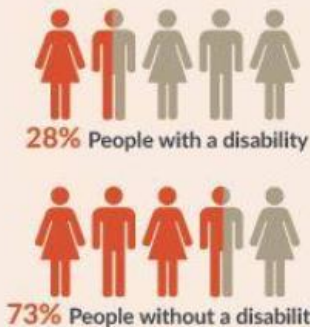

Less likely to hold a bachelor's degree

Graduated college with a bachelor's degree or higher

Source: U.S. Census Bureau, 2015 Current Population Survey

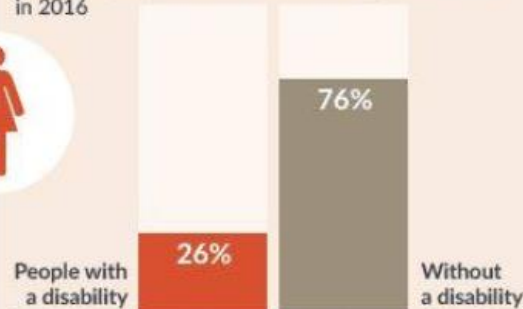

Lower employment rates: working-age

Sources: *The Employment Situation*. U.S. Bureau of Labor Statistics, 2017; and *Persons With a Disability: Labor Force Characteristics*. U.S. Bureau of Labor Statistics, 2017. Retrieved from <https://www.bls.gov/news.release/disabl.nr0.htm>

Lower employment rates: bachelor's degree

Employed people with a bachelor's degree or higher in 2016

CTE Participation Improves College and Career Readiness Outcomes

Students with a disability who are CTE concentrators* have better outcomes.

3% fewer unexcused absences

5% more likely to graduate high school on time

20% more likely to be employed after graduation

*CTE concentrator is a student who has taken at least four courses of CTE in high school.

Source: *Career and Technical Education, Inclusion, and Postsecondary Outcomes for Students with Disabilities*, CALDER Center, 2017.
