UPDATE

I. How to Donate
II. Face Coverings
III. Battle Born Medical Corps
HOW TO DONATE

• Whether you're a person or a corporation, Nevadans can help provide essential medical gear during the COVID-19 pandemic.

To make your donation, please email us at donations@nvhealthresponse.nv.gov
• Include your contact information (name, address, phone number).
• Provide details of the above medical items you can provide, e.g., size and quantity.
• Data when items will be available.
• Approximate total value of the donated items.
• (we will email you a receipt for your tax records once items are received)

Donations meeting the criteria above will be vetted through the Nevada Department of Health and Human Services (DHHS) and distributed through the statewide priority distribution system.
The NV Division of Emergency Management follows social distancing guidelines, so no warehouse will be available for drop-offs.

Additional information:
• No other items are currently accepted in this program.
• To donate food and other essentials, contact your city or county emergency manager.
• To make a cash donation, please visit https://www.nevadaef.org/donate-now/

Thank you for your support.
FACE COVERINGS

• Nevada's Medical Advisory Team recommended using a "face covering" (not a mask) to help prevent the spread of COVID-19

• **Bandana or other sturdy cloth**, **NOT** an FDA mask like an N95

• For more guidance on face coverings, visit nvhealthresponse.nv.gov
This Directive waives certain licensing requirements to allow Nevada to quickly bring additional health care workers into our hospitals. It also permits certain doctors, nurses, EMTs, and even medical students to go to work immediately to care for COVID-19 patients.

Those interested in joining the Corps can log onto ServNV.org
Major General Ondra L. Berry
I. Minimize Deaths & Mitigate Spread

II. Obtain PPE to Protect Health & Safety Workers

III. Expand Testing to Inform Decision-Making

IV. Efficient & Coordinated State Information Flow

V. Inform Public on Medical Expert-Endorsed Strategy
• The Major Disaster Declaration approved Saturday opens the door to use Nevada National Guard military personnel and assets with federal funds to respond to the COVID-19 outbreak in Nevada.

• The National Guard activates under two statuses:
  1) Title 10 Active Duty under the President
  2) Title 32 National Guard under the Governor.

• As part of the Major Disaster Declaration, the president approved federal funds for the Nevada National Guard to activate in the state under Title 32.

• This does NOT assign missions to units. All Nevada National Guard missions must be approved by FEMA.
MAJOR GENERAL BERRY - NEVADA NATIONAL GUARD
ONGOING OPERATIONS

• Activated the Joint Operations Center in Carson City.
• Established liaisons for appropriate agencies to enhance information distribution.
• Instituted teleworking measures for our Soldiers, Airmen and Civilian employees to ensure we continue to practice social distancing.
• Established Health Protection measures and medical screening personnel at state military facilities.
• Today, activated about 100 Soldiers and Airmen to support donation management and logistics missions in northern and southern Nevada.
• This is NOT martial law. The Nevada National Guard is comprised of neighbors helping neighbors. We work here. We live here. We are Nevadans helping Nevadans.
