COVID-19 CASES IN NEVADA

Nevada COVID-19 Cases, Cumulative Daily Counts

Nevada COVID-19 Deaths, Cumulative Daily Counts

*As of 4/8/2020 cumulative daily death counts are displayed by date of death, rather than the date that the death was reported to the state. The total count for statewide deaths on the first tab may not equal the sum of the cumulative daily death counts because of cases where exact date of death is unknown or pending report.
[APRIL 21, 2020] Nevada Gov. Steve Sisolak was joined by Nevada experts to announce the framework the State will use as it begins to roll back restrictions and re-open. Gov. Sisolak was joined by a team of Nevada experts to lay out the State’s criteria and provide updates specific to Nevada, which can be seen in the graphic to the right.

Nevada Criteria for Phased Re-Opening

- There is a consistent and sustainable downward trajectory of cases and hospitalizations for a minimum of 14 days
- Healthcare and Public Health Systems are able to adequately respond
- Number of cases should be declining such that hospitals can treat patients without having to implement Crisis Standards of Care.
- There is enough laboratory testing capacity statewide to test symptomatic individuals. There is the public health workforce capacity in local and state health departments to conduct widespread case and contact tracing.
- There is a sustained ability to protect vulnerable populations
- Existing outbreaks are successfully contained and closed in special settings like health facilities and nursing homes.
- Social distancing practices are followed, including a strong recommendation that members of the public, employees, and healthcare providers wear masks for the purpose of source control.

Re-opening will be incremental and occur through a series of steps.

ADDITIONAL NEVADA COVID-19 UPDATES

[APRIL 21, 2020] Nevada’s Certified Community Behavioral Health Centers (CCBHC’s) announced that they are offering crisis services and telehealth during this pandemic. The CCBHC’s focus on person-centered and family-centered outpatient and behavioral health services as well as primary care treatment for the entire family. Per their message, nobody will be turned away for inability to pay, and the staff will help in any way that they can, including assisting individuals with Medicaid enrollment. Click HERE to read the release or go HERE for more information about CCBHC’s.

[APRIL 21, 2020] Nevada Attorney General Aaron Ford, along with 21 other states, sent a letter to the Department of Agriculture (USDA) urging the Trump Administration not to finalize a proposed rule that would take Supplemental Nutrition Assistance Program (SNAP) benefits from low-income Americans. In the letter, AG Ford and the other states describe how this rule would not only take away food assistance from those in need but also impair the national response to the pandemic while imposing major administrative burdens on States that are desperately fighting COVID-19. The AG’s press releases can be found on their WEBSITE.

[APRIL 21, 2020] The Nevada Department of Corrections (NDOC) announced today that they would be providing distance learning to inmates. Since COVID-19 necessitated that NDOC modify their learning operations, Nevada educators worked to help them facilitate learning in creative ways, like offering real-time video lectures, delivering course materials directly to the facilities, and expanding the use of email. For more information about NDOC’s education services, you can click HERE.
**BATTLE BORN MEDICAL CORPS**

DURING THE COVID-19 EMERGENCY, CERTAIN MEDICAL LICENSING REQUIREMENTS ARE WAIVED TO ALLOW NEVADA TO ADD ADDITIONAL HEALTHCARE WORKERS INTO THE SYSTEM

- Pharmacy Technicians
- Medical Students
- Nursing Students
- Medical Laboratory
  - Directors or Technicians
- Licensed or Certified
  - Behavioral Health professionals

**FACE COVERINGS**

As the COVID-19 pandemic continues to impact our health care systems, both nationally and right here in Nevada, it has become increasingly important to slow the spread. In response to this, the State’s medical experts have weighed in with information on how to protect ourselves and others with improvised face coverings.

**THANKS FOR HELPING US FLATTEN THE CURVE**

#StayHomeForNevada

WE ALL PLAY A ROLE KEEPING NEVADA SAFE

THANK YOU NEVADA!
NEVADA HERO OF THE DAY

WASHOE CERT TEAM

The Washoe County Sheriff’s Office Community Emergency Response Team is made up of everyday citizens who are helping the COVID-19 response by providing screening to their fellow Washoe County residents.

Thank you, Washoe County CERT members, for supporting the community.

- Confirmed cases: 787,794 (Today: +3,468)
- Deaths: 42,362 (Today: +268)

Last updated 21 Apr 8:25am EDT Source: Johns Hopkins CSSE *Note: The CSSE states that its numbers rely upon publicly available data from multiple sources.
The Department of State advises U.S. citizens to avoid all international travel due to the global impact of COVID-19. In countries where commercial departure options remain available, U.S. citizens who live in the United States should arrange for immediate return to the United States, unless they are prepared to remain abroad for an indefinite period.

At present, the Department of State is making every effort to assist U.S. citizens overseas who wish to return to the United States. As the Covid-19 situation develops, our ability to provide such assistance working with commercial airlines or arranging for evacuation flights may become more limited or even unavailable. In recent weeks, commercial airlines have significantly reduced flight schedules and countries have closed airports and borders with little advance notice. If you wish to return to the United States, you should make arrangements to do so now and contact the nearest U.S. Embassy or Consulate for assistance as needed. There is no guarantee that the Department of State will be able to continue to provide repatriation assistance and transportation options to the United States may be unavailable in the future. If you choose to remain overseas, you should be prepared to remain where you are for the foreseeable future.

U.S. citizens who live abroad should avoid all international travel.
