Nevada COVID-19 Response

Digital contact tracing solution through Salesforce and Deloitte.

- ✓ Contact tracing starts at the point one of our health departments receives a positive lab report.
- ✓ Contact information is obtained for each case (discuss initial symptoms, when they were most infectious, what they did on those days, who they interacted with for at least 15 minutes within 6 feet of each other).
- ✓ Follow-up with identified contacts and advocate they follow CDC health guidance.

Tracing implementation:

- ✓ As part of this, 250 contact tracers started on June 13, tripling the paid contact tracers.
- ✓ 96% of those contact tracers are Nevadans.
- ✓ 23% are bilingual in Spanish and English.
- ✓ The tracing will occur from 8 AM to 8 PM each day including weekends.

Reopening Nevada

Nevada United: Roadmap to Recovery

Find COVID-19 Testing in Nevada

Nevada health officials are working hard to ensure that anyone who needs a test can get one. It's the only way we'll know where the virus is and then arrange resources to slow the spread.

COVID-19 data and test results that include people who don't show symptoms ("asymptomatic") can provide a more accurate understanding of how the virus is spreading. Identifying asymptomatic cases will provide a better understanding of the virus's impacts on the community. Expanding testing plays a major part in influencing the state's continuous adjustment of prevention and control measures. Additional testing can also lead to a larger number of Nevadans being made aware of their conditions, knowledge that could contribute to focused social distancing and further slowing community transmissions.

The testing location information below is provided and maintained by [Castlight: COVID-19 Resource Center](#). (Testing locations are not endorsed or vetted by the Nevada Department of Health and Human Services.) Testing sites can be searched by specific location or by county.

Individuals who need help accessing this content are encouraged to call Nevada 2-1-1 for more information. While testing criteria for coronavirus disease have been expanded in Nevada to include individuals with and without symptoms, each testing site has its own criteria, which is indicated in the results below.

Testing availability differs by states, please check your state guidelines for testing criteria. Anyone with symptoms should self isolate and talk to a healthcare professional.

- 1 If you are experiencing symptoms of COVID-19, such as fever, cough, or shortness of breath, please contact your healthcare provider or telehealth program to discuss whether you should be evaluated for testing.
- 2 Each coronavirus test provider will determine if testing is appropriate based on your symptoms, risk factors and test availability.
- 3 Call the coronavirus test site before you go to learn about testing criteria, availability, and hours. This information is changing daily.

8 things you can do to avoid a Coronavirus scam:

Ignore offers for home test kits and vaccinations.

Scammers are selling products to treat or prevent COVID without proof they work.

Hang up on robocalls.

Scammers use illegal sales call to get your money and your personal information.

Mortgage Fraud

Scams to harm homeowners, mortgage borrowers, and renters through housing scams, relief scams, and mortgage fraud.

Look for phishing emails & text messages.

Don't click on links in emails or texts you didn't expect.

Research before you donate.

Don't rush you into making a donation. Get tips on donating at [Charity Scams](#).

Protect your personal information and your wallet.

Scams exploiting economic impact payments, loans, fake Coronavirus vaccines, unproven cures, and bogus at-home testing kits.

Contact Tracing.

Know the process, who contacts you, what questions will/won't be asked, and what information is needed.

Stay Informed.

Go to [ftc.gov/coronavirus](https://www.ftc.gov/coronavirus) for the latest information on scams.

Health and Human Services
DIVISION OF PUBLIC AND
BEHAVIORAL HEALTH

Call **2-1-1** or visit nevada211.org
for information and referrals to
health, human and social service
organizations.

The State of Nevada was awarded \$654,640 for the Crisis Counseling Immediate Services Program through FEMA and will use the funding to place crisis counselors in community programs.

- The Department of Health and Human Services (DHHS) will work in partnerships with local health departments and human service agencies, Boys and Girls Clubs, and Nevada COVID-19 Aging Network (Nevada CAN) to ensure Nevadans have access to prevention and early intervention services.
- Through this grant from the FEMA, Nevada will be deploying 35 crisis counselors statewide to support Nevadans coping with the effects of COVID-19. The program will focus on a population health approach that encourages healthy coping and active management of stressors, building resiliency and fostering compassion.

Coping and Managing Mental Health

Resources to deal with stress, fear, anxiety and other feelings during COVID-19 response

1. **Crisis Support Services of Nevada:** Call 1-800-273-8255; text CARE to 839863 for 24/7/365 crisis services.
2. **Crisis Text Line:** Text HOME to 741741 from anywhere in the U.S., for 24/7/365 crisis services.
3. **Disaster Distress Hotline:** Call 1-800-985-5990 or text TalkWithUs to 66746. The helpline is available 24/7/365, and is dedicated to providing immediate crisis counseling for people who are experiencing emotional distress related to any natural or human-caused disaster. People with deafness or hearing loss can use their preferred relay service to call 1-800-985-5990.
4. **National Suicide Prevention Lifeline:** If you feel you or someone you know may need emotional support, please visit the Lifeline's website at suicidepreventionlifeline.org for helpful resources or call 1-800-273-TALK (8255). The Lifeline is free, confidential, and available to everyone in the U.S. You do not have to be suicidal to call the Lifeline.
5. **Warmline for Health Care Workers:** Call 1-833-434-0385 This line serves as a confidential mental health resource for health care professionals to seek support before they have reached a crisis point. Monday - Friday from 8 a.m. to 8 p.m.
6. **SafeVoice:** Call 1-833-216-SAFE (7233)

This program provides students a safe place to submit tips concerning their own safety or that of others and is available 24/7/365. Tips always stay anonymous.
