Roadmap to Recovery for Nevada: Phase 2

Guidelines and Protocols for Individuals and Businesses in Phase 2

The Statewide Standards and Business Guidelines set forth in this document were developed with the Local Empowerment Advisory Panel (LEAP) to advise individuals, employers, and businesses through Phase 2.

Steve Sisolak
Governor of Nevada

Phase 2

GUIDANCE ISSUED BY THE NEVADA LOCAL EMPOWERMENT ADVISORY PANEL (LEAP)

Nevada United: Roadmap to Recovery is designed to build a path forward and safely restart Nevada's economy with the core guiding principal that the state's efforts will be "federally supported, state managed, and locally executed."

The Roadmap establishes the Local Empowerment Advisory Panel (LEAP) to serve as a resource for local governments as they work through the necessary requirements to reopen and share best practices and guidelines for their communities. Most importantly, the recommendations of the LEAP help inform the Directives issued by the Governor as Nevada moves through each phase.

The Statewide Standards and Business Guidelines set forth in this document are reflected in the [Governor's Directive](#) for Phase 2 and were developed with the LEAP to advise individuals, employers, and businesses through Phase 2. In addition, industry-specific guidance and recommendations developed by the LEAP are available at nvhealthresponse.nv.gov. The LEAP's recommendations were compiled based on guidance from the CDC, the U.S. Food and Drug Administration, [Nevada OSHA](#), and other relevant agencies for the industry and public health officials, including state licensing boards to provide guidance for the public.

PLEASE NOTE: Business owners and employees are strongly encouraged to review the industry-specific guidance and recommendations referenced above as the guidelines and protocols outlined in this document are general and summary in nature. The entirety of the Phase 2 requirements and best practices can be found in the industry-specific guidance and the Phase 2 Directive.
